

ALUMINIUM SECTIONAL DOORS

Aluminium Perforated Sheet

Acrylic

Aluminium Bar Grille

For superior quality, strength and security in commercial and industrial applications, nothing fits the mould better than our aluminium sectional doors. Aluminium sectional doors are designed to withstand the rigours of the harshest working environment and are used in a wide variety of applications.

RECOMMENDED SPECIFICATIONS

Aluminium Sectional Door, as supplied by Mirage Industries Pty. Ltd., Australia (The Australian & New Zealand exclusively Licenced Distributors).

APPLICATION

- Car park entries
- Secure areas
- Garage entries
- Hospitality venues ie: cafes, restaurants, bistros, hotels, clubs
- Main entries ie: showrooms, arcades, malls, sporting facilities and public amenities

TECHNICAL DETAIL

- Maximum door size: 7500mm (w) x 4400mm (h) - subject to site measure
- Standard Headroom, low headroom and high cycle operational hardware options
- Door automation is recommended

FINISHES

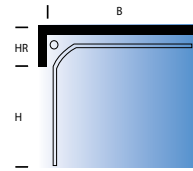

- Choose between the following:
- Mill finish (for painting by others)
- Anodised finish (some models only)
- Powdercoat finish (available in over 240 colours)

Call 1800 465 599 or visit www.miragedoors.com.au

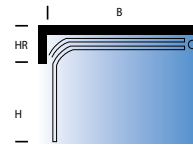

SPECIFICATION

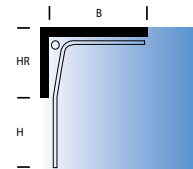

- Sectional doors are constructed from horizontal panels spanning the opening width with all panels installed one above the other to cover the opening height
- Whilst generally manufactured in equal sizes, sectional door panel heights can be altered within material and operational parameters for the ultimate customised finish
