WEATHERTITE

DESIGNED TO BE THE ULTIMATE IN LONGEVITY AND VALUE.

INTRODUCING THE WEATHERTITE DOOR

Get more long-term value from your trucks and trailers with TODDCO's WeatherTite roll-up door. Crafted from tough polycomposite material, it eliminates worries about the biggest threat to door durability: water penetration. Because it's completely resistant to moisture, the WeatherTite door prevents swelling, warping, finish problems, delamination, and rotting. It's also built to withstand the day-to-day challenges every fleet faces, providing dependable performance in all conditions. Learn the key facts about this proven TODDCO innovation and see why it has been a trusted choice for years. Then bring on the rainiest days. Now with the WeatherTite door, it's great weather for TODDCO.

WEATHERTITE PANEL 12-MONTH LIMITED WARRANTY.

TODDCO warrants to the original end-user purchaser of the WeatherTite door that the door panels will be free from defects in material and workmanship for a period of twelve (12) months from the date of delivery, subject to all terms, conditions and limitations.

Equipment Specification:

Designed to be the Ultimate in LONGEVITY AND VALUE.

The WeatherTite panel is made from a recyclable polycomposite, that is extruded all in one piece. The extrusion process creates extra thick walls, the internal rib and the patented joint system, that sheds water even when the door is being opened. This makes these panels very durable and tough enough to compete with the plywood cored dry freight doors while being impervious to moisture.

**WEATHERTITE
DOORS DROP INTO ALL
EXISTING 3/4" TRACK
CONFIGURATIONS.**

**Adjustable top
fixtures** plus rubber
head seal provide tight seal
at top of door.

**Aluminium
reinforcement straps**
required for door openings in
excess of 87" wide.

**Single counterbalance
spring** for effortless operation.

**Tough double-
wall panels**
Are extruded in one
piece for added
strength.

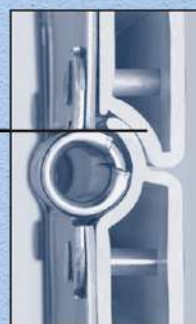

**Three rows of
center hinges**
Standard on panels
73" or wider.

**No thru rivets
on center hinges.**
Gives the door a smooth
surface for an automotive
quality paint finish and/or
excellent decal adhesion.

**Standard bottom
seal** for weather protection.

**Unique joint
configuration**

Forces water flow
downward, while keeping
door panels properly
aligned and rigid.

Panel configuration
Accepts TODDCO standard hardware.

Polycomposite construction makes the
door impervious to moisture.
Smooth, high quality finish
makes painting optional.

**Horizontal
reinforcement
ribs** add to the
strength.

**Strong four-knuckle
end hinges.**

**Unique panel
joints** designed
to form a better water
barrier. Also designed
for maximum pinch
protection.

Side seals standard.
